

The Tuberculosis Pandemic – A Call to Action

Science, Application, Politics

Swiss TPH Hybrid Symposium

21–22 March 2023

Swiss TPH, Kreuzstrasse 2
4123 Allschwil, Switzerland
and Live-Stream

For decades, the battle against tuberculosis (TB) has been sidelined. However, it remains one of the world's deadliest diseases. Join international experts to exchange on current TB research, re-awaken public awareness, spark the global response and drive policy change. Topics will include:

- State of the TB pandemic
- Latest on basic and applied science
- Health system issues
- The poverty connection
- How decision makers can support progress
