in collaboration with
Healthcare Dialogues

Kreuzstrasse 2
4123 Allschwil, Switzerland

8 February 2024

Eva Herzog,
Member of Swiss
Parliament

Teresa Graham,
CEO Pharmaceuticals,
F. Hoffmann-
La Roche

Lutz Hegemann,
President of Global
Health and
Sustainability,
Novartis

Improving access to healthcare in low- and middle-income countries (LMICs) is a global issue. On 8 February 2024, Swiss TPH will bring together experts and key players from the life science industry, academia and product development partnerships to assess current strategies and progress and foster synergies between partners for more effective product development, licensing and implementation. Please join us for this multidisciplinary networking event organised in collaboration with Healthcare Dialogues.
