## 2 Swiss Tropical Institute (STI) Overview

### The Swiss Tropical Institute (STI)

The Swiss Tropical Institute was founded in 1943 as a public organisation. It is supported by the Swiss Federal Government and the Canton of Basel-Stadt (total 20%). The greater part of the funding is from competitively acquired project funds and the earnings of the Service Departments.

#### *The mandate of the STI is:*

**To contribute to the improvement of the health of populations internationally and nationally through excellence in research, services and teaching and training.**
