

Master in Infection Biology - Autumn Semester 2026

	08:15-09:00	09:15-10:00	10:15-11:00	11:15-12:00	12:15-13:00	13:15-14:00	14:15-15:00	15:15-16:00	16:15-17:00	17:15-18:00	
Monday			12384 Molecular Infection Biology (Biozentrum U1.197)			51775 Transferable Skills (10 dates, see course directory) (SR 2)		28872 Concepts in Molecular Epidemiology (SR 2)		79214 Advances in Infection Biology, Epidemiology and Global Public Health (SR 5)	
			PhD Student meeting	Research Dept. Plenary (11:15 - 11:45)							
Tuesday			11650 Immunology of Infection (SR 2)			28893 Biostatistics week 1-3 (Biozentrum, U1.101)	28893 Biostatistics week 1 - 7 (Biozentrum, U1.101)		monthly Infection Biology Seminar /Seiss TPH Research Seminar - see events on Intranet		
				14466 New Approaches to Tackle Antibiotic Resistance (Biozentrum, U1.141)							
Wednesday		11655 Epidemiological Concepts (SR 5)					34889 Medical Parasitology and Neglected Tropical Diseases (SR 3)				
								52327 Making a Drug (Biozentrum, U1.141)			
Thursday	28394 Evolution of Host-Parasite Interactions (Vesalianum, Kleiner Hörsaal (O1.13))				12412 Infection, Immunology & Vaccines (Bibliothek, Petersplatz 10)	11647 Interdisc. Research in Epi and IB (SR 5) Mandatory in 3rd Semester	11652 Drug Discovery and Development for Parasitic Diseases (SR 2)		28893 Biostatistics (practicals) week 1 - 7 (SR 5)		
Friday						28880 Introduction to Bioinformatics (SR 5)
