III. PRIORITY HEALTH CHALLENGES

- Life expectancy at birth in CI is 53 years of age
- Inadequate coverage of key health interventions for rural and urban poor populations.
- Maternal mortality is a national emergency since 2012 (DHS 2012).
 - **CI's high rate of 614 deaths per 100,000 live births (DHS 2012)**
- Child mortality is also an emergency
 - **108 per 1000 live births (DHS 2012)**

IV. CI'S NATIONAL RESPONSE

- The Ministry of Health (MOH) is responsible for policy, governance and oversight of the health sector
- MOH and his different divisions confront a variety of challenges as they work towards their common goals in the health sector
- The challenges are both internal and external to the national health system
- Cote d'Ivoire is working to overcome major challenges to equity of access to quality preventive and curative health services

V. NATIONAL HEALTH STRATEGY PROCESS (1/2)

- NHS 2016-2020 is the strategic framework for the development of health sector
- Promotes concepts of result based management
- 06 importants steps for elaboration
 1. **Documentary review**
 2. **Analysis of sanitary situation**
 3. **Determination frame and mains interventions**
 4. **Costing of interventions**
 5. **Monitoring and evaluation**
 6. **Validation of NHS**

V. NATIONAL HEALTH STRATEGY PROCESS (2/2)

- Inclusive process
- Require significant, concerted action by all parties to meet national performance targets
- Main actors of Health sectors
 1. **Public sector**
 2. **Private sector**
 3. **Development partners**
 4. **National NGO**
 5. **International NGO**
 6. **Civil Societies**
 7. **Consumers Association**
 8. **Users of Health services**

VI. STAKEHOLDERS OF PROCESS

Au service des peuples et des nations

FACACI

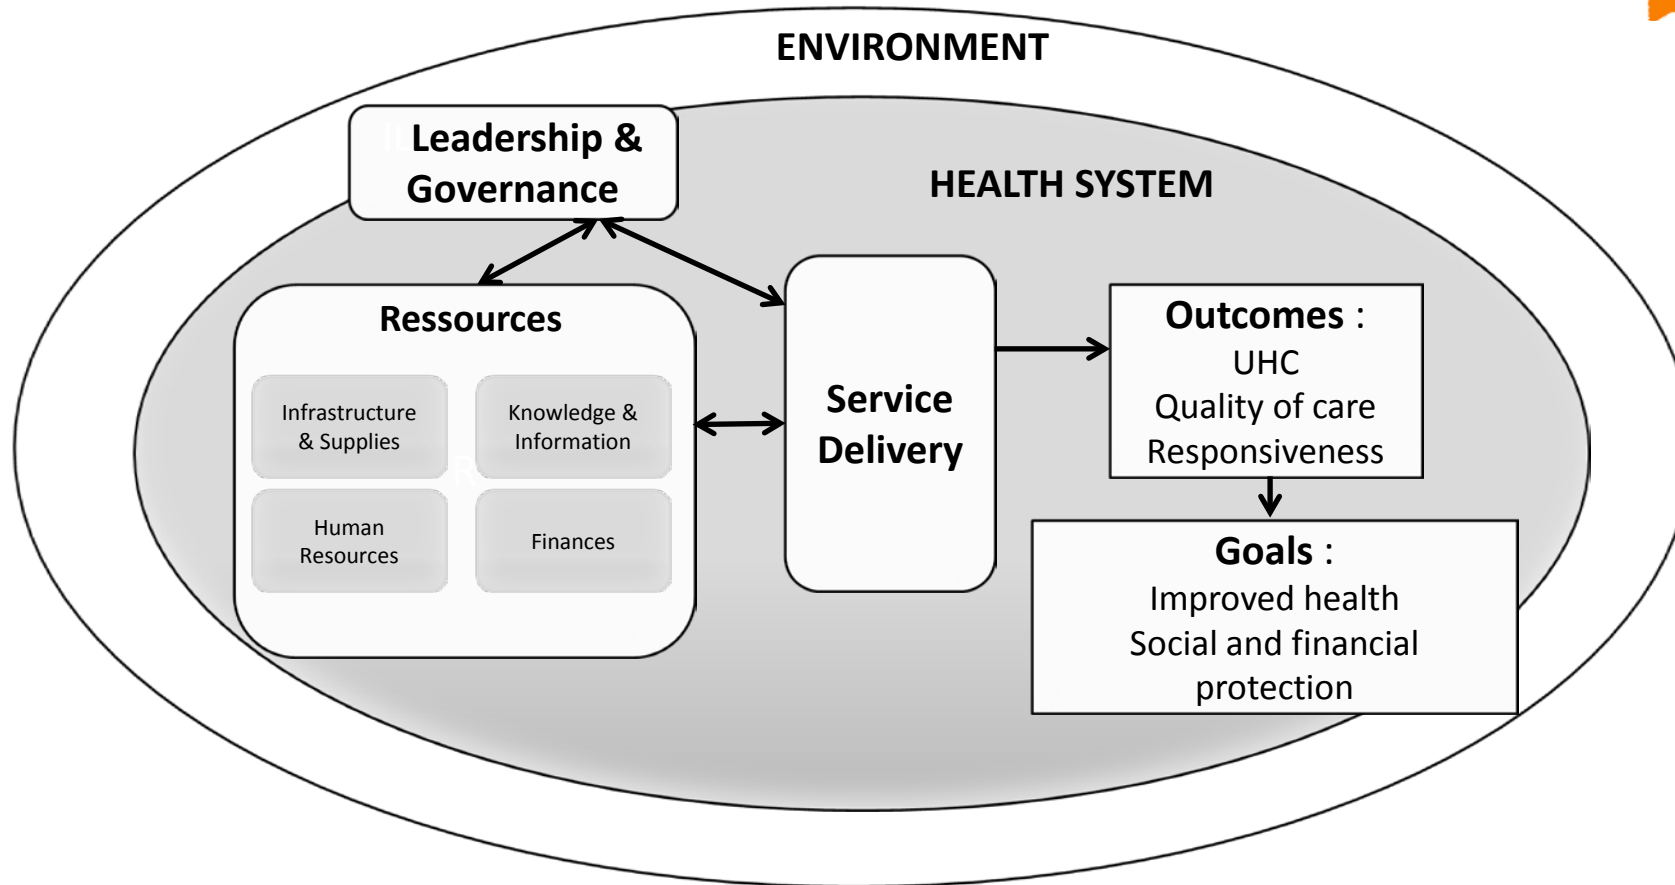

VII. NHS OBJECTIVES

- Achieve maximum improvements in the health sector
 - Improved Governance, Leadership
 - Improved Access to High Quality Integrated Services
 - Intensify prevention and control diseases
 - Improve access to quality maternal, neonatal, child and adolescent health services
 - Improved Health Financing
 - Reinforcing health prevention and promotion

VIII. HEALTH SYSTEM DYNAMIC FRAMEWORK

IX. MONITORING AND EVALUATION

- Progress will be measured by using performance-related indicators
- A report of annual situation is elaborated each year
- A multiphase approach to monitoring the implementation of the national health policy shall be adopted
- Periodic evaluation will be promoted and shall be based on the annual review format outlined in the Common Management Arrangements for the implementation of the health sector.

X. CONCLUSION

- NHS is a frame to coordinate health sector
- Engagement of stakeholders is important to achieve the goals
- Long term objective is to improve health of population
