

Swiss TPH Spring Symposium 2019

Human Resources for Health

Innovations in Medical Education, Vocational Training and Continuing Professional Development

Closing Remarks

Prof. Nino Künzli, Dr. med. & PhD

Vizedirektor Schweizerisches Tropen- und Public Health-Institut Basel (Swiss TPH)

Direktor Swiss School of Public Health (SSPH+)

Präsident Eidgenössische Kommission für Lufthygiene (EKL)

8.5.2019 – 16:15h - Rialto

Prof. Charles Kleber, State Secretary for Education, Research and Innovation from 1997 to 2007
Swiss School of Public Health SSPH+ Honorary Fellows 2018

Health is not only an individual accomplishment but a collective achievement of the society.

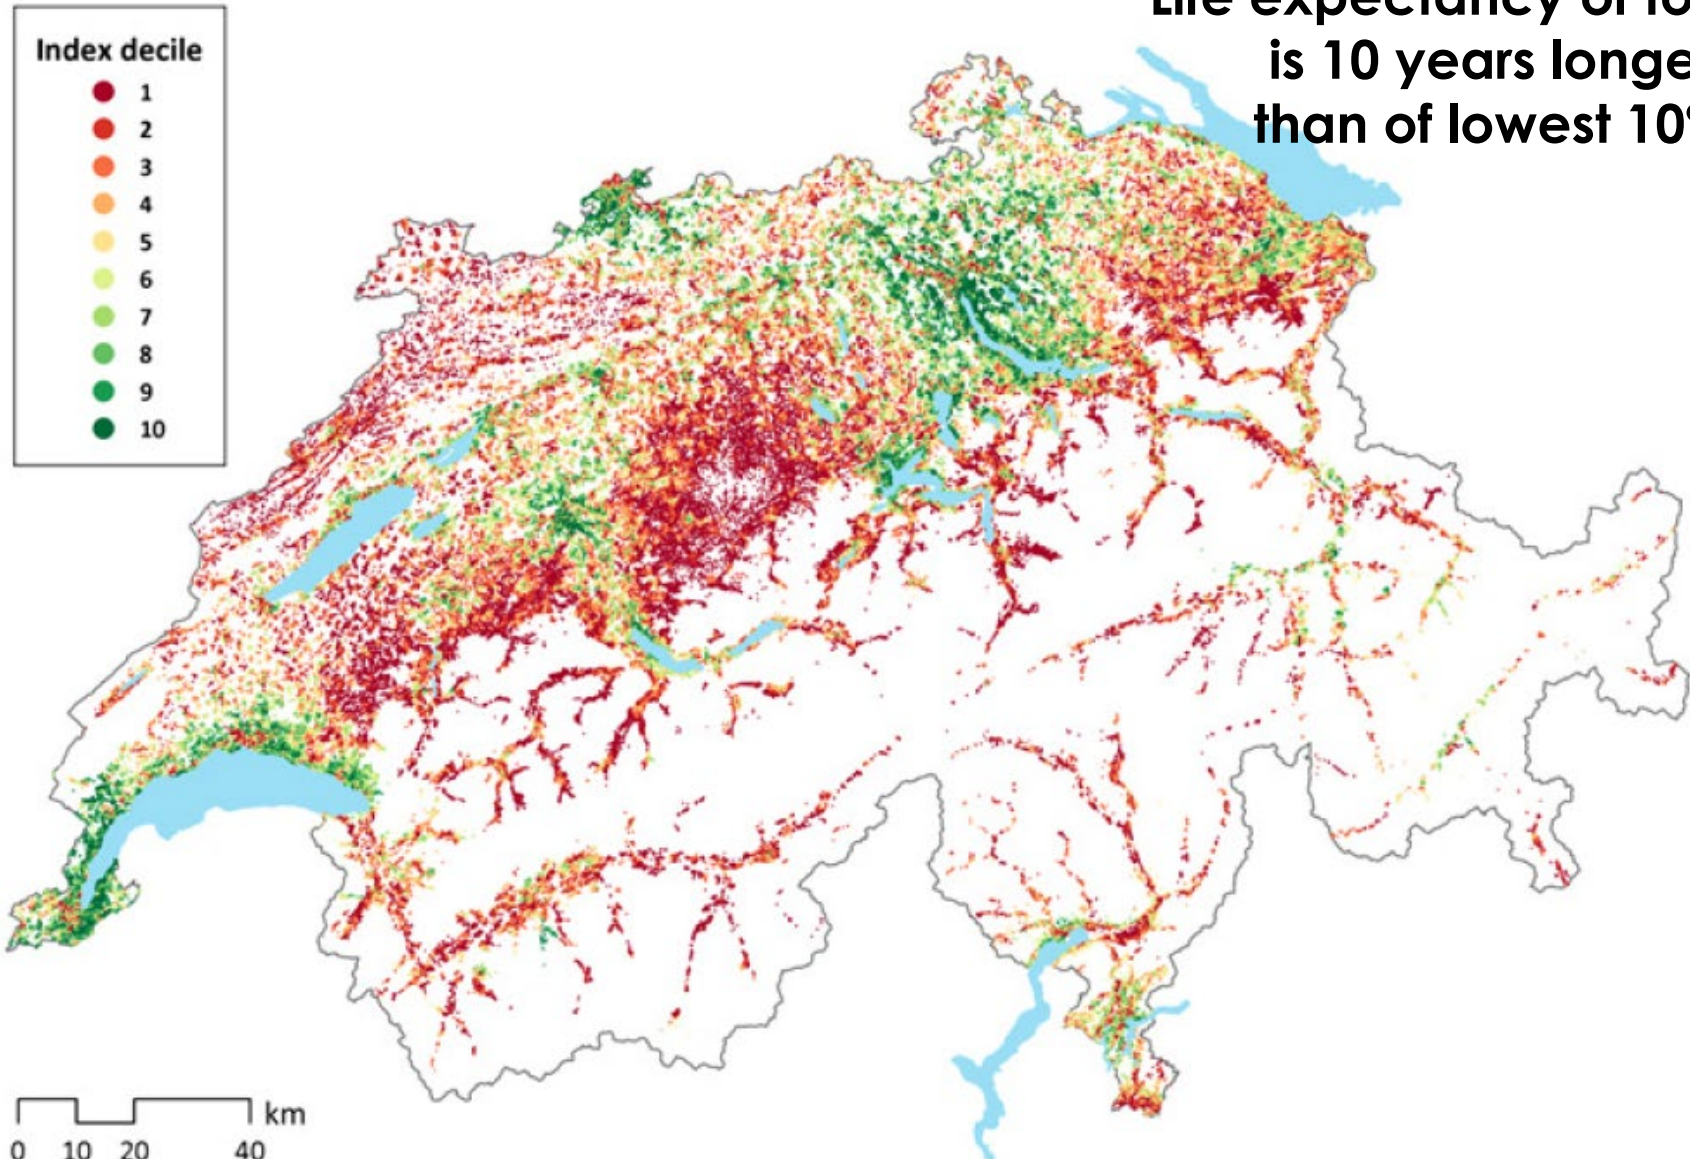

We need more social intelligence than technologic innovation, more organizational creativity than new molecules. This paradigm shift requires also a shift in what we teach and train in the health education

We need to tailor the health system to the needs of the health of people.

Social Index Distribution Switzerland

red = lower , **green** = higher index

Life expectancy of top 10%
is 10 years longer
than of lowest 10%

Equity

2nd female appointed to the U.S. Supreme Court of the U.S.

Winter Symposium: Climate change and health

Risks, Adaptation, Resilience and Co-Benefits

5-6 December 2019, Parterre Rialto, Basel

Climate change will affect global health in many different ways. Adaptation to health conditions will be sorely needed to prevent major negative health consequences in countries in most need. Mitigation will have co-benefits for health, including reduction of air pollution from reduced fossil burning.

Join us to review cutting-edge research and case studies from various world regions. Take part in a rich and intellectually stimulating programme of talks, discussions and debates on:

- Climate-related health risks
- Vulnerabilities and impacts in different contexts
- Health and non-health adaptation measures
- Frameworks for health system resilience strengthening
- Mitigation and health co-benefits
